<b>Eco-Committee Members Not Present:</b>	Emmanuel G,
<b>Summary of Discussion:</b>	We came up with a reusable bottle campaign to help reduce the amount of throw away plastic in our school. We decided that we could reward people in our class who bring a reusable bottle to school each day with housepoints. We got into groups and some of us wrote speeches to announce our campaign in assembly. The rest created a poster to put around our school to remind people to bring a reusable bottle.
<b>Next Steps:</b>	To use the litter pickers to collect litter around our school. To make sure we check who brings a reusable bottle and give out house points every day. We need to give our assembly on Friday to the school to tell them about our reusable bottle campaign
<b>Time and Date of Next Meeting:</b>	09/03/22 3.15 – 4.30
